

L'COMPTE'S HANDSMOOTH

FRANKFORT ROUNDABOUT.

Entered at the post-office at Frankfort, Kentucky, as second-class unclassified matter.

GEORGE A. LEWIS.

Editor and Publisher.

FRANKFORT, FEBRUARY 5, 1887.

Little Albert Gallatin, infant son of Mr. James A. and Mrs. Sallie B. Hodges, died at the residence of his parents, in Louisville, Sunday at 1 o'clock p. m., after a brief illness with bronchial pneumonia. The remains were brought to this city Monday afternoon and interred in the family lot in our Cemetery, the funeral taking place from the residence of Col. John N. Crutcher, in Belle Point, at 10 o'clock Tuesday morning. This sweet little fellow, just at an interesting age, was the idol of a fond mother's heart and the joy of a doting father; the sudden fading of his bright young life is a crushing blow to them. But there is a balm for them even in this severe affliction, their baby boy is now one of the angel choir, safe from the storms of life, a bright jewel in the Master's crown.

The sorrowing parents have the sincerest sympathy of a large circle of friends and relatives.

The large and enthusiastic railroad meeting held at the court-house Tuesday evening shows that our people are waking up and taking a deep interest in the matter of securing a competing line of road to this city from Georgetown. It is to be hoped the interest will not be allowed to flag, but will be kept at fever heat until the road is secured. There will be an adjourned meeting held at the court-house on Monday, at which there should be a large attendance of the people of the county. Frankfort and Franklin county can get this road if they will exert themselves, and are not afraid to tax themselves for that purpose.

A rumor being current on the streets of our city that the U. S. Steamer Essex, to which Ensign Hugh Rodman is assigned, had exploded and sunk, we are glad to say that the rumor is unfounded, and that the damage to the vessel was slight, and was occasioned by the explosion of an exercise torpedo. One man was killed and three wounded. The Essex is at Hong Kong, China, being repaired.

The people of Scott county take a vote to-day on the proposition to subscribe \$25,000 to the capital stock of the extension of the Versailles & Midway railroad. This road is another link in the line that is being made around us. Franklin county should arouse and go to work with the same energy that has marked the people of Woodford, and connect with this new line and thus hold her own.

Capt. Sam. M. Gaines and Miss Laura Westfall, of Hopkinsville, Ky., were married in that city, on Wednesday last, by Bishop T. U. Dudley. The bride is a beautiful and accomplished lady, and the groom is—well it isn't necessary to say anything about him, everybody, men, women and children, know him as an A. No. 1 gentleman. Here's to you, Captain, and your fair bride. "May you live long and prosper."

Mrs. Mary S. Overton, a lady well known to many of our older citizens, died at her home, near Lexington, on Tuesday morning, of pneumonia, in the 80th year of her age. She was buried from Christ Church (Episcopal), on Thursday morning. This gentle, estimable lady was much esteemed and beloved by all who knew her.

John Board, a lifetime prisoner in the penitentiary, sentenced for murder, attempted to commit suicide on Friday night by hanging himself to the grating of the door of his cell. He was discovered by one of the guards in the cell house and cut down before life was extinct.

Miss Lucy Stockton gave an elegant entertainment to her young friends on Wednesday.

Mr. Harry Case gave an entertainment on Friday night of last week, which was an exceedingly enjoyable affair to all present.

The L. & N. Railroad will sell round trip tickets to Louisville for one fare, every day next week, to all those who have secured their theatre tickets to see Booth.

If the ground hog did not come out Wednesday to look for his shadow, it was not because the thunder was not loud enough the night before to awaken him from his winter nap.

Our little city has been flooded with buyers of fast trotting stock the past ten days, and it is here that they find what suits them. More than one car load has been shipped from this point in the last few days.

A young man by the name of Lud Cornish was hung on Saturday night last, by a mob near Springfield, Washington county, Ky. Cornish murdered, a few days before, a young lady who refused to marry him.

Elkhorn has been higher the last few days than has been known for years, and considerable damage has been done to farmers living along its banks.

Mr. J. Gray McLean has purchased from Miss Mary Gayle a lot on Second Street, South Side, thirty-five feet front by two hundred back, at \$700. Mr. McLean, we understand, proposes to commence the erection of a residence as soon as the weather will permit.

The Grand Council of the Royal Templars of Temperance will assemble in this city on Thursday morning next, at 10 o'clock, and remain in session two days. The sessions will be held in the Council Chamber of the City Hall.

The post-office room in the new Government Building is nearly ready, and the post-office will be moved into it next Saturday night, the 12th inst. The room is handsomely fitted up, the woodwork being of oak, oiled and varnished, and the boxes and drawers are of the latest and most improved pattern.

The demand for first-class trotting stock is very great just now, and promises to be greater. Franklin county has as fine a lot of horses in this line, if not finer than any of our neighbors. Among those who own such stock our young friend Mack Salyers has several that are crack animals. Those who design buying such stock would do well to see these before making purchases.

A second attempt was made, on Wednesday morning last, to burn the residence of Col. C. E. Hoge, at Jones' station, three miles and a half from this city. It seems that a trunk belonging to a lady visitor was broken into and between \$75 and \$100 stolen therefrom. The clothing in the trunk was saturated with coal oil, as well as the bed, which was in the room, and then set fire to. The fire was discovered and extinguished without serious damage to the house.

An ex-convict, named Jes. Mukes, was arrested and committed to jail Wednesday evening, charged with the robbery and arson. He was employed by Col. Hoge as a hand on his farm.

Our readers will remember that we made a note, a few weeks since, of the fact that a gentleman named Walter F. Jones had been doing good business here as an agent of the Provident Savings Life Assurance Society without license, and that he had left suddenly upon finding that he would be punished for it. It appears that the gentleman was not aware of the fact that he was violating the law, and being a nervous, sensitive man he became so frightened that he lost his head and fled incontinently. The facts coming to the knowledge of Messrs. Sudlow & Marsh, the general managers of the company, Major F. E. Marsh at once came to our city and settled the matter satisfactorily with the authorities.

Republican Convention!

The Republicans of Franklin county will meet in convention at the Court-house in the city of Frankfort, on Monday, February 7th, 1887, at 2 o'clock, p. m., for the purpose of appointing delegates to the State convention, which meets in Louisville on Wednesday, May 11, 1887.

EDWARD M. DEANE,
Chairman of the Committee.

Frankfort should be especially interested in having the proposed new railroad built from this city to the Virginia line, for by that means we will bring the people of Eastern Kentucky here without their having to come through Lexington or Cincinnati. From letters received by members of the committee appointed at the meeting Monday night, the indications are that the counties above us are fully alive to their interests in this matter, and it is absolutely certain that they will do their part towards securing the road.

The Shelby News says there is probability of the L. & N. Railroad being straightened between this city and Louisville by a railroad being built from Bagdad to Shelbyville.

The river has been rising rapidly for several days, but yesterday afternoon was on a stand, with twenty-five feet of water in the channel, by pier mark.

\$2.00 per dozen for solid nickel silver tea spoons, warrantable twenty years, at
GRAY & CHURCH'S.

The entertainment given in the academy of music last night was the best thing of the kind that has ever been in this city.

The company is a strong one, and as the stage management is in the hands of that veteran in the show business, Chas. Sweeney, everything is worked for all there is in it, and the fun goes fast and furious. Twenty-two people are seated in the first part, with Al. Field and Horace McLean on the outside ends. The costumes of the men, the fine vocal and instrumental music, the funny songs and sayings of the end men, all combine to form one of the best musical first parts we have witnessed in a long time. In the olio there are a number of specialties that deserve special mention. Among these was the base ball statue clog, which was fine. Horace McLean, with his banjo, is a big card, no matter whose show he is with, and he always brings down the house. Jack Russell, in his "I say," was very funny, and the people were not slow in catching on. Taken all through, the show is good, and we can say to Manager Field that we need have no fear to follow up the "best of 'em."

with constipation or occasional attack of diarrhea,
lame back, headache, dyspepsia, feeling increased
at night, itching and bloodier trouble, that they
swear it is caused by dysentery in the lower bowels.
It is now a well established fact that many dis-

The Best.

There is an advertisement in the Examiner this week of a remedy that is superior to all others, and as nearly all disease owes its origin to the impure condition of the blood, this is by far the best preparation ever offered to the trade. It purifies and enriches the blood, gives tone and energy to the system, builds up broken down constitutions, and gives strength and energy to the feeble and debilitated. We refer to S. S. S., and will say that this notice is cheerfully given them, unsolicited on their part.—*Abingdon (Va.) Examiner*

FRANKFORT ROUNDABOUT.

Railroad Meeting in Frankfort.

A mass-meeting of the citizens of Frankfort was held at the Court-house, in Frankfort, on Tuesday, February 1st, last, in regard to the construction of a railroad from Frankfort to Georgetown, Paris, Mt. Sterling, and thence on to Prestonsburg. Judge G. W. Craddock was appointed Chairman, and P. McDonald, Secretary. Judge Craddock made a lengthy speech in regard to the interest of the city of Frankfort in the construction of this railroad.

Judge Bush also made a few remarks, stating that at present he was President of this railroad company. That he was in communication with capitalists who would construct the railroad, provided a reasonable amount of stock was taken within sixty days, and pushed to completion immediately. Mr. Lewis E. Harvie stated that he was in favor of a railroad that would connect us with the main trunk lines, not a switch line, and four hundred thousand dollars would be a small sum for such an enterprise. He did not want a railroad with nothing but a dummy engine.

Mr. S. F. J. Trabue was called upon and said that he had been trying to secure this road since 1881. The road had been surveyed from Louisville. \$150,000 would be spent within three miles of Frankfort. The road will be run through the Stamping Ground and on to Georgetown, thence to Paris, on to Mt. Sterling, and thence to Salersville, in Magoffin county; and thence on to Prestonsburg, being one hundred and sixty miles from this city. The road and its connections will go through the coal and iron fields of Kentucky.

The following preamble and resolutions were unanimously adopted:

WHEREAS, It is the sense of this meeting that the interest of the people of Franklin county demand that a railroad be built from Frankfort through the counties of Scott, Bourbon and Montgomery into the coal fields of Eastern Kentucky as speedily as possible; therefore, be it

Resolved, That D. W. Lindsey, Russell McKery, J. Stoddard Johnston, Jno. T. Buckley, Frank Chinn and G. F. Berry, be appointed as a committee to confer with any committees that may be appointed by any of those counties, as to the best means to be employed to secure the construction of such a road; and said committee are directed to report their action to an adjourned meeting, to be held at the court-house in this city on February 7, 1887, at two o'clock, p. m.

The meeting then adjourned.
G. W. CRADDOCK,
Chairman.
PAT. McDONALD, Secretary.

MEETING OF THE COMMITTEE.

At a meeting of the committee appointed by the citizens of Frankfort to confer with similar committees from the counties of Bourbon, Scott, and Montgomery, in regard to building a railroad from Frankfort to Georgetown and Paris, and thence to the coal fields of Eastern Kentucky, were the following persons present, viz: Frank Chinn, J. T. Buckley, D. W. Lindsey and G. F. Berry.

On motion of D. W. Lindsey, Frank Chinn was elected Chairman, and G. F. Berry, Secretary of the meeting.

On motion of D. W. Lindsey, the Chairman of this meeting is requested to communicate as speedily as possible with prominent citizens of Scott, Bourbon and Montgomery counties, with a view of their holding meetings and appointing committees, with which we may confer on the subject of the proposed railroad. Said motion was adopted.

On motion of D. W. Lindsey, the meeting then adjourned, subject to call of the Chairman.
G. F. BERRY,
Secretary.

Narrow Escape of the Steamer Hibernia.

We clip the following from the Louisville Courier-Journal of Thursday, February 3, giving an account of the narrow escape of the Hibernia from destruction. It will be seen that Capt. Sundry V. Pence's coolness and presence of mind alone saved his boat from destruction. The Captain's run of luck has seemed to be against him for some time, and we hope this indicates a change for the better. Here is the item:

The Steamer Hibernia narrowly escaped being burned yesterday afternoon about five o'clock. She was returning to this city from a successful trip up the Kentucky river. When about ten miles from here the dense fog which gathered on the river overtook her. Capt. Pence, her commander, concluded to permit the boat to drift with the current until the fog cleared away, thinking it would soon do so. The rough-bouts, who had been working in the rain all day, hung their wet clothing over the boilers to dry. Suddenly a convulsive tremor shook the boat from stern to stern, and it was ascertained that she had grounded at Harmons' old shipyard, in Jeffersonville. The captain had hardly ordered the bow-line made fast to the shore, before a bright sheet of flame shot up from above the boilers and ignited the frail wood work on the boiler deck. In an instant all was bustle and confusion. Terrified passengers rushed hither and thither in their frantic efforts to escape. The captain, however, retained his presence of mind. He hastily turned a hose upon the fire, and in a very short time it was extinguished. The loss will not exceed \$50. The fire originated from the wet coats which were hung over the boilers to dry. As the fog did not lift the boat was tied up on the Jeffersonville shore, where she remained until this morning.

Al. G. Field's United Operatic Minstrels opened at the Grand last night an engagement which will run till Saturday night. The house was well filled with an unusually good class of people. The entertainment given by this company is a very enjoyable one, the finale of the first part introducing the famous telephone racket yet seen. This act simply drove the audience. The singing was good, the instrumental music up to the same standard, and the specialties novel and interesting. Mr. Jucker's emporium, the base ball structure droll, Mr. McLean's banjo playing, Mr. Pirring's palal juggling, Mr. Russell's unique and popular specialty, the quartettes, and, in fact, the whole performance was artistic and very attractive. Signer Dawson's thrilling act formed a fitting climax to such an array of good things and the audience sent everybody home in a good humor. The same program will be given this evening.—*Whispering Intelligence, Dec. 11th.*

We do not sound a needless alarm when we tell you that the taint of scrofula is in your blood. Inherited or acquired, it is there, and Ayer's Sarsaparilla alone will effectually eradicate it.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at Louisville, as the fact that the people are giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous. In this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, larger size \$1. Every bottle warranted.

Louisville Tobacco Market.

FURNISHED BY GLOVER & DURETT, PROPRIETORS LOUISVILLE TOBACCO WAREHOUSE.

The sales on our market for the week just closed amount to 1,074 hds., with receipts for the same period of 1,000 hds. Since January 1st amount to 8,135 hds.

The sales have been smaller this than last week, but the receipts have been much larger. Prices at times were a little irregular, but not generally lower. We very much regret to say that the quality has not improved. We have had a good season and look for heavy receipts the coming week. Shippers should be careful and not bring in their tobacco too soft in order for it to be low enough when well ordered and handled. The following quotations represent the market for new burley:
